

Vocational Technical School “Tsar Simeon Veliki”- Targovishte - Bulgaria

/Short presentation/

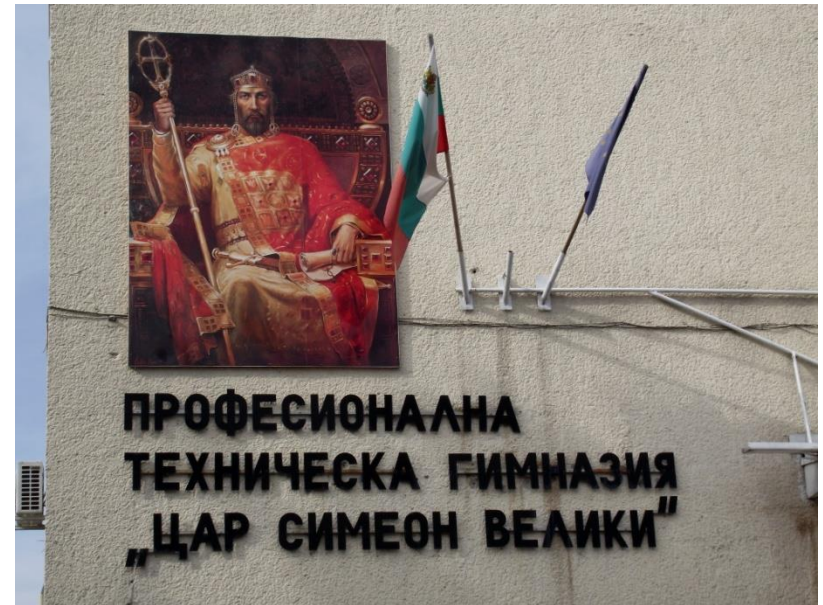

Our school

Vocational Technical School “Tsar Simeon Veliki” from Targovishte is a state run educational institution, with technical profiles and extensive English learning.

It is representative for
Targovishte Region.

The institution has more than 40 years of experience in preparing young specialists in Mechanics, Electronics and Automatics.

Nowadays, it offers vocational education and training in the fields of – Electronics / Computer systems/, Mechanic engineering and Auto mechanics for students 14-19 years old.

Classrooms

Our school with the playground

We have 33 teachers,
17 administrative personnel and 325 students,
half of them from ethnic minorities of Muslims.

There is a library with 10000 books,
5 ICT laboratories and an indoor sports hall.

**Targovishte region is a
region with high
unemployment rate.**

Being an industrial area in the past, the town government have recently attracted new investments.

Therefore, technical education has gained popularity among young people in the region.

Most of them
continue their
education in
universities in
Bulgaria and abroad.
